Democratic State Ticket.

FOR GOVERNOR,
WILLIAM ALLEN, of Ross.
LIEUTENANT-GOVERNOR,
SAMUEL F. CARY, of Hamilton
FOR SUPREME JUDGE,
THOS. Q. ASHBURN, of Clermont.
FOR AUDITOR OF STATE,
E. M. GREENE, of Shelby.
FOR TREASURER OF STATE,
JOHN SCHREINER, of Meigs.
FOR ATTORNEY-GENERAL,
THOS. B. POWELL, of Delaware.
MEMBER OF PUBLIC WORKS,
H. E. O'HAGAN, of Erie.

The Premium List of our County Fair, has entirely swallowed up our local columns for this week.

Will the editor of the Eaton Register inform the farmers why their farms should not be exempt from taxation as well as the bonds held by National Banks?

The Ringmasters ticket was headed by a crusader and bottomed by one. Why didn't the Prohibition Convention adopt the whole of it except one or two?

The man who owns the bonds pays no taxes. The poor fellow who has a small house and lot adds his mite to support the government. Therefore the poor man should vote the bondholders ticket.

JOHN SHERMAN, the Ohio Senator, is a great financier. No doubt of it. He went into the United States Senate a few years since not worth a farthing, and now his wealth is estimated at \$700,000. Besides that, he has improved the fortune of a brother-in-law or two in about the same proportion.

The attempt of the Republican ring masters to smuggle their partisan into power by the assertion that it was necessary for everybody who did not believe in the Pore to vote their ticket, in order to preserve the liberties of the country, has been a humiliating failure. It has been received with popular contempt.

Although the Grangers are known not to be a political organization, yet a large number of them will vote for Farmer Allen against Laver Hayes. This can be relied on, if they are true to their professions and principles.

The Republican party wants to resume. There are seven hundred millions of greenbacks and bank notes, and only sixty millions of gold and silver in the country. It looks like it would be as difficult, as to put a bull through an auger hole.

The Republican party is commencing to reduce the public debt again, and publish monthly statements. They always do prior to an election. If the debt had been reduced at the rate they always claim for it before an election, the confounded thing would have been overpaid long ago. The people can't be fooled by them any more, though, thank goodness, and all their blarney about reducing the debt is simply buncombe, for electioneering purposes, and no heed is paid to it.

The Radicals of Ohio must, it seems, have Indiana talent to help them in the present campaign. Senator Morton is prancing over the central portion of the State, while the *reds* have opened the campaign in this county with a venerable and self-denying apostle from Richmond. Morton "waves the bloody shirt" of the last war—the successor of St. Peter waves the "raw head and bloody bones" of the Catholic Church.

Slang and scurrility are the weapons employed by Republican editors in this campaign. They have no arguments with which to go before the people, and they seek to divert public attention from the issues involved in the contest, by the most disgraceful and demoralizing appeals to the passions and prejudices of their readers, but although that kind of a dodge may have been successful in other years, it will not win in this contest, because the people know that the leaders of the Republican party are responsible for the hard times, and they will vote for more money, better times, and honest old Bill Allen, in October.

The Republican editors presume largely upon the gullibility of their readers, when they fill their papers with *slang* about Governor Allen, vituperation concerning the Democratic party and falsehoods generally, and expect such stuff will be received as arguments why the oppressed farmers, mechanics and laborers should vote for Hayes, and to continue in power the party that has marked its history by broken promises and unredempted pledges, and is the cause of the present stagnation in business and scarcity of money. These leaders will discover their mistake on the second Tuesday of October.

LET THE LABORING MEN CONSIDER.

Why is it that the bondholders and moneyed rings throughout the nation are so opposed to the financial platform of Ohio? Why is every money lender so desirous to see an immediate return to a specie basis? Why was it that the bondholders and brokers recently met in Convention at Saratoga, New York, and resolved that an immediate return to specie payments was in the interest of productive labor, and the Republican Ohio platform favored capitalists and those who deal in money? The answer is obvious. The tighter you render money matters, the larger interest can be exacted and the more valuable capital becomes. As the bondholders now, through the National Banking scheme, have the exclusive control of the currency, their object is to fund the national debt, retire the legal tenders, and plant themselves upon this immunity without paying an equivalent for its value. This odious monopoly now costs the people over thirty millions, and at best the national currency is only redeemable in legal tenders, which the bondholders and their Republican adherents call rags and confederate scrip. The very money in which their notes are redeemable is thus discredited, and for what purpose? Evidently to afford capitalists the power to further prostrate labor, and enhance the value of their own investment, for which they pay no taxes. Why are they so frightened at the financial platform of Ohio? The plain reason is, that if endorsed by the people it endangers their trade and business. This scare caused them to meet in Convention at Saratoga, under the hypocritical guise of convening in the interest of the laboring masses, and adjourning over to meet in Cincinnati on the 25th day of September, to enlighten the people of Ohio how to vote at the Fall election. Jay Gould and other Wall Street brokers have manipulated all the prominent journals East to labor in the wake of hard money and contraction, and the same influence has touched many prominent journals in Ohio. If these bondholders, bankers and brokers were not interested in grinding an ax for themselves, how does it come that they take so deep an interest in the result of the coming election in Ohio? Without distinction, or irrespective of party antecedents, the bullionists are all on the other side and for contraction. In the present condition of the nation a return to a specie basis is utterly impossible. There is not sufficient coin in the nation to supply the place of the fractional currency, but to raise it, the Republican party propose to sell gold-bearing bonds and thereby further increase the national debt.

In conclusion, we say to Democrats and Liberals, stand by the financial platform of Ohio, and fear not. To the laboring masses we say, do not be misled by party fealty, but vote in your own interest and let these moneyed sharks howl, for their interest is not yours. Remember, WILLIAM ALLEN is the standard bearer of the laboring man's interest, and therefore the bondholders, bankers and brokers have interfered in the Ohio election, the result of which they know has a natural sequence.

A prominent Republican in Eaton was heard to remark the other day that, "the Democrats have us on the money question, there is no use of trying to get around it—money is what we want—I thought we had them on the Catholic question a little—but we began to soon, and it is playing out, and I must confess it looks a little doubtful!" We advise our Republican friend to come over and vote for the party that is struggling for the prosperity of the producer and laboring man, instead of the rich banker and bondholder. Now is the time to desert the rotten and "unprecedented corrupt" party. Your own organ has charged it with being such, and you can do so with credit and honor.

Every poor man, whether laborer, mechanic, farmer or professional man, who favors and votes for Hayes and his ticket, is voting for his enemy—an enemy who is daily tightening the chains already coiled about him. So there is no excuse for a man who will vote for his own imprisonment. Time and the condition of the country, together with the circumstances of the laboring man, go to prove this. Be not deceived by their promises and lies, but vote the ticket whose candidates are pledged to the interests of the laboring classes.

It costs the country twenty millions of dollars yearly to keep up the Republican system of National Banks. This vast amount is drawn from the people as interest, and the Banks issue a currency which is redeemable by greenbacks. To such a system the Democracy is opposed. The National Banks are the "leading weights that fetter industry and stifle enterprise."

Our next article on "Natural History," will be the Cow. It will be beautifully illustrated.

The fool killer can get a job at the Register office if he was to come around now.

LOOK UPON THIS PICTURE.

The distinguished success of his administration, which, to the fame of the patriot and soldier, has added that of the capable and judicious statesman, entitles General Grant to the gratitude of his countrymen—Republican platform.

"The exposition of corruption and frauds has created in the minds of many a distrust and desire for a change of leaders, &c."—Eaton Register, Nov. 5, 1874.

"It is unquestionably true, (disagreeable as the fact may be to Republicans,) that for more than four years the National Administration has been 'CORRUPT BEYOND PRECEDENT'—Eaton Register, Jan'y, 4, 1874.

"What other party than the modern democrats could successfully carry such loads as Credit Mobilier, Salary Grab Motives, Inquiry, Southern-Richardson contracts, Williams, Boss Shepard, Simmons and id genus omne appointments?"—Register, Nov. 12, 1874.

Now we ask every honest and intelligent voter in Preble county, to contrast the declarations of the Republican State Convention, that nominated Hayes for Governor, with those of the Eaton Register. This same journal now floats at its head as editor, an office-holder under this rotten and thieving administration, and his chief effort is to make the tax-ridden farmers and laboring men of Preble county believe that, what that paper solemnly declared a short time ago, was a lie, and that they should march to the polls and so vote. If men are mere machines—if one year they can be told by this party organ, that the party they placed in power is "corrupt beyond precedent," and that a "change is desired,"—and the next year, deny it and persuade them to still vote that party in power, what is the elective franchise worth! If the Eaton Register was controlled by any other person than one who is holding office under this "unprecedented corrupt" administration, there might be some excuse for such a flagrant outrage upon the independence and honesty of its readers. All we ask of the independent and liberal voters of this county, is to read the indorsements of the Republican Convention of Grant's administration, and then the comments of the Register upon its "distinguished success," and if they can continue to swallow it, then the Lord have mercy upon their robbed, tax-ridden and oppressed souls, is our prayer!

STOP THAT LIE.

The Radical Ringmasters in this county are certainly hard-pressed for capital, to deceive and persuade the honest and independent voters of Preble county, into the support of the rotten and corrupt administration of Grant and his "bread and butter brigade." To induce some who are independent and vote their honest sentiment irrespective of party, to go with them this fall, several of the Ringmasters are telling the Liberal voters that "they would vote against Grant's 'unprecedented corrupt' administration, but then the Democrat comes out and claims it as a Democratic victory," and wind up by saying, "it done so last year!" Now, these gentlemen are either much given to lying or have very treacherous memories, as any one can satisfy themselves by an examination of the Democrat, on the result in this county last fall. We here quote just exactly what we said about it, and politely request these gentlemen to try some other deception to bolster up their rotten party:

"The election in this county on Tuesday last was gratifying in the extreme, and almost too good for belief. Preble county has covered herself with glory! A thousand congratulations to the HONEST and INDEPENDENT VOTERS, that laid aside all party feeling and prejudices, and voted for their interests, freedom and independence!"

Is there anything in the above that claims the result as a Democratic victory? Let the honest voters of Preble county not be deceived by such miserable clap-trap and party trickery.

The following is the ticket placed in nomination by the Prohibitionists of this county, on Thursday of last week:

Representative—J. H. Blackford, of Monroe.
Probate Judge—C. W. Bloom, of Jefferson.
Auditor—Lorenzo Stubbs, of Gratiot.
Treasurer—George Kimmel, of Monroe.
Clerk—J. W. Leas, of Monroe.
Prosecuting Attorney—T. H. Caylor, of Gratiot.
Commissioner—Abraham Shoemaker, of Dixon.
Influential Director—Levi Risinger, of Washington.

The Prohibitionists seem in earnest this fall, and have placed some good men in nomination. The Radical ticket, and so far as having crusaders and Prohibitionists, and Proscriptionists on their ticket is concerned, they had better made no nominations, but simply endorsed the Radical county ticket. There is no difference in the two tickets so far as bigotry is concerned. We will give the full proceedings of the Convention next week.

The Report of the Teachers' Association was handed in too late for this week's paper. We are somewhat crowded with the Premium List.

REPUBLICAN POLICY.

Let the Government take care of the RICH and the rich will take care of the POOR! How do you like it ye hard-fisted Laboring men?

Tax the farmers and laboring men, but lay no burdens on the rich bondholder. How do you like it, ye men who till the soil, dig in ore banks and coal mines, ye men who labor for your daily bread?

LABORING MEN, ye who are the true source of wealth to the nation, can you tell why you are out of employment, why Furnaces and Mills and manufactories are idle? It is because Republican leaders have

MADE MONEY SCARCE

How long will you continue to vote for the party leaders who pursue this policy? It may do well to call Democrats slang names and try to be witty and funny, but the time has come when

LABORING MEN

who work on farms, in mines of iron ore, and coal, and work shops, want money to buy bread and clothing for themselves and families, and saying that Democrats look like thieves, or any such slang, will not answer for argument nor the cry of the Laborer for Bread! We want

MORE MONEY

and the men who work are going to VOTE FOR IT and AGAINST Hayes and the whole Republican Ticket, and so they should!

The Republican State ticket is catching it on all sides. Hayes for his crusade proclivities, and Tom Young for his bad army record and bumper proclivities. Then again, the proscription policy of the party in religion is losing them hundreds of votes. All in all, our Republican friends are between cross-fires, and cannot protect themselves. The party has had power too long already, and the people demand a change. They have had enough fanaticism, and are clamoring for a return to the days of liberal opinion and honest government.

Suppose gold is the best currency. What benefit would it be to the people to have such a currency, while the country is governed by a Republican Administration, with all the corruption, extravagance and abuse of power that now characterize it?

The late advice of the New York Sun, from Ohio are to the effect, that Governor ALLEN will be re-elected by a majority of from 25,000 to 30,000! The Sun is an independent paper, and has no interest whatever in giving to the public false information.

The death of Senator Andrew Johnson will reopen the Senatorial fight in Tennessee. Cheatham will probably succeed Mr. Johnson.

Providence, according to some Republicans, is taking a hand in favor of ALLEN and the Democratic party. They say that hard times and the storms are operating against the Republican party.

The jury in the case of John D. Lee, charged with being the leader in the Mountain Meadow massacre, reported that they were unable to agree, and were discharged by the Court. It is reported they stood nine for acquittal and three (one Gentile and two Mormons) for conviction.

The large new cistern near the Court House was constructed with great care, and in it the best of material was used, and yet it was found wanting in holding water. Last week the water was pumped out by the Steamer, and an examination developed the fact that some fendish miscreant had, with an iron tool of some kind punched holes in the bottom. Should the perpetrator of this devilish attempt to deprive property of protection be discovered the county will be put to no expense in his trial. The Cistern has been repaired and is again full of water.

On Friday night last, the Boot and shoe shop of John Fitzmorris was entered by a burglar, and four pairs of boots stolen therefrom. On Saturday the thief was arrested at Richmond, Ind., and the plunder found with him—one pair of boots being on his delicate hoofs, the others in a sack. He is a stranger, but will remain for some time the guest of Sheriff Townsend, and our county will be able to cultivate his acquaintance.

On Friday evening Geo. Deem and wife were driving to the residence of Hardin Bruce, and when just outside the corporation, the axle of the buggy broke, and the buggy and horse were overturned and the occupants spilled out. Mrs. Deem was bruised somewhat, but luckily outside of the injury to the buggy, no serious damage was done.

Madame Jarley's Wax Works. This popular entertainment will be given at City Hall on Friday evening August 20th, under the auspices of the Universalist Sabbath School. It will be arranged and conducted by persons who have witnessed it in some of the eastern cities. It will undoubtedly be one of the most interesting and amusing entertainments ever presented to the people of Eaton. Admission 25cts. Take the DEMOCRAT.

REPUBLICAN correspondents are apologizing for the smallness of General HAYES' Mass Meetings in Southern Ohio. They will be more astonished at the smallness of his vote in October.

Wisconsin will, despite the rains, have good crops.
